

CLEANER FOR CLEANING MACHINES AND TOOLS FOR APPLICATION OF SILICONE, POLYURETHANE OR POLYSULFIDE

Cleaner intended for cleaning or rinsing mixing devices and mixers after applying two-component sealing compounds based on silicone, polyurethane or polysulfide in the production of IZO-glass.

PROPERTIES

- Removes fresh/partially cured silicone, polyurethane or polysulphide.
- Does not contain chlorinated hydrocarbons.
- High flash point

USE

For cleaning or rinsing of devices and mixers used for the production of thermal insulating glass after the application of two-component sealing compounds.

It is suitable for removing fresh and partially hardened sealants based on silicone, polysulphide and polyurethane. Devices that are washed with TKK GLASS EXPERT CLEANER 5 may contain PTFE pipes or viton seals

TECHNICAL DATA

APPLICATION

Tekafin cleaner 5 is used for washing mixing heads, dispensers and dosing systems in the production of IZO-glass. Dispensers/seals/surfaces: Suitable materials: steel, stainless steel, aluminum, polyethylene, PTFE, viton. Unsuitable materials: PVC, ABS, silicone seals, PU, EPDM, polystyrene...

PACKAGING

Tin handles: 1 l, 5 l, 20 l

• Barrels: 200 I

• Other packing methods are possible upon request

STORAGE

24 months in dry and ventilated rooms at a temperature from +5°C to 35°C and in the original closed packaging .

HEALTH, SAFETY HANDLING AND DISPOSAL INFORMATION

Additional information on safety, safe handling instructions and personal protective equipment as well as disposal information are available in a safety data sheet. Safety data sheet is available upon request. You can also ask your TKK distributor for a copy.

WARNING

Instructions contained in this document are based on our research and experience, however, due to specific conditions and working methods we recommend that you perform preliminary tests prior to any application of our products.
