CLEAN PROTECT

DEGRIP SPRAY

SPRAY FOR UNSCREWING AND REMOVING RUST

An effective rust remover. The high dissolving and penetrating power of the Unscrewing Spray accelerates the loosening process of screws, threads, joints, and all mechanical parts affected by rust.

PROPERTIES

- Quickly penetrates the surface, dissolves rust and accelerates the release process
- Leaves a thin layer that protects the metal from corrosion caused by moisture and weathering.
- Extends the life of mechanical equipment.
- For outdoor and indoor use.
- Can be used at different angles (360°).

FIELD OF APPLICATION

- It is suitable for removing and releasing rust on rusted and oxidised screw connections, joints, hinges, mechanical components. The excellent formula allows the liquid to penetrate even the smallest spaces.

USAGE INSTRUCTIONS

- First, mechanically remove dirt and rust with a metal brush.
- Shake the dose well before use.
- Apply a slightly thicker layer.
- Allow it to penetrate the surface and work for about 5-10 minutes. Repeat if necessary.
- The flexible tube allows you to reach even harder-to-reach places.

PACKAGING

Aerosol dose 400 ml

STORAGE

36 months in a dry place at a temperature between +5 °C and +25 °C. Store the doses in an upright position.

HEALTH, SAFETY, HANDLING AND DISPOSAL INFORMATION

Follow normal working hygiene. Use only in well-ventilated areas. Additional safety information, safe handling instructions, information on personal protective equipment, and disposal information can be found in the safety data sheet. Safety data sheet available on request. You can also obtain a copy from your TTK sales representative.

WARNING

The information given is based on our tests and practical experience. However, due to specific conditions and working methods we recommend preliminary tests for each case of use.
